**BASES ~ Includes installation in any Taranaki cemetery on existing near level concrete berm strip.**

A headstone is supported by its base so the base must be larger than the headstone. The two are dowelled and cemented together. Headstone Warehouse offers 9 different standard shaped bases, which are all the same price. The 600 x 230 x 100mm size is usually used for cremation or childrens monuments and is available only in the B1, B2, B9 & B10 shape. If we don't currently have in stock the style, size or colour you require, we will be able to supply within 8-12 weeks depending on the shipping cycle. The most popular burial sized base is the 900 x 380 x 100 and we have the most stock in this size in all the different shapes. Base sizes are width x depth x height.
