Any monument is enhanced by a sub-base between the main base and the headstone - this is called a B11 or plinth. Plinths are usually thinner than the base but can be the same thickness if desired.

Headstone Warehouse Granite statues, alcoves, manaia and columns are beautifully hand carved from natural stone by some of the finest granite sculptors in the world. The statues make beautiful memorials for cemeteries, or can also be for the home or garden.

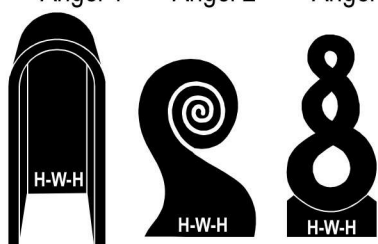

Being hand carved, no two are ever exactly the same. Granite is a strong durable natural stone millions of years old, and once carved is a piece of art which will bring a touch of elegance and reverence to your loved one's monument in perpetuity.
